This isn't your typical Laundromat. Timers automatically open the doors, disarm the alarm, turn on the lights, and tell the water heater to fire up! Your store is ready for your customers before you leave the house and you can check on your store from anywhere that has a computer. Roll down metal door and a block wall changer room ensure that your store can operate securely even when unattended. Call Christian at (678) 300-7847 to take the next step towards owning this store.
